Spizzerinkum Supper.

The pastor's bible class held its first social meeting last Monday evening at the church. The prayer room was prettily decorated with flowers and autumn leaves. Fifty members, their wives and friends gathered at the tables and did justice to Belgian hare pie and other good things. Lagre Hall and the teacher donated the hares from which the delicious pies were made. A short program followed. Don Cook sang two songs. C. H. Biss answered many questions about western Canada. Pastor told some things he saw at Camp Custer. Mr. Ballard gave a short talk. The singing of "America" closed a very successful meeting.

An Emergency Poultice

Our grandmothers were adepts in the preparation of poultices and the home treatment of many ailments. In these days with the doctor within easy distance, most of this knowledge of "home-made" medicine has been lost.

There are emergencies, however, when something must be done quickly and for any injury or condition requiring an antiseptic dressing or poultice nothing is more effective and simple to make than the following:

Dissolve one-half ounce of Powdered Boric (20 Mule Team Boric is best because it is strongest and dissolves quicker) in a pint of hot water. Wring out several pieces of cheesecloth or linen in this hot solution and apply to injured surface. The Boric is very healing and soothing; and most important of all, antiseptic. Your druggist sells 20 Mule Team Powdered Boric.—Adv.

Get More Work Out of Your Clothes

Clothes are like men, in the service they render; some do so much work and do it so well that they're cheap at \$35.00—others are a waste at \$20.

No man wants wasteful help today; you should apply the same principle when buying clothes; you should demand that they be built to conform to the national policy of saving all we can.

Hart Schaffner and Marx and Styleplus clothes are built this way; they're built of the best wearing materials obtainable at the price and they're guaranteed to give you full value for every dollar they cost you.

We don't know of any better way to help you to save, when you need clothes than to offer you these makes; they're all wool and long wearing and if they don't satisfy you in every way you get your money back for the asking.

Horse Ran Away.

Monday afternoon as Miss Abby White was returning home from school, accompanied by Miss Freda Wells, the horse which they were driving became frightened at a pile of scrap tin lying at the side of the road and started backing up despite the efforts of the girls in the buggy to control it. The incident took place in the road through the swamp just west of the Henry Skellenger place west of town and the horse then ran over into the swamp on the north side of the road, very nearly completely demolishing the buggy to which it was attached. A remarkable part of the accident was that neither Miss White or Miss Wells were injured. The buggy, however, was a total wreck and sets ever in the swamp as evidence that there has been recent activities over in the Sunnyside Farm district.

Subpoenaed As Witness.

Mr. and Mrs. Smith Nichols, Mr. and Mrs. John Raymond, L. D. Russell, Deputy Sheriff Chas. Murray and Chas. Scott were called to Stanton Friday morning to appear as witnesses at the hearing of Mrs. Carrie Hutton, the Eureka township woman charged with murdering her husband at their home just north of this city Monday morning, September 30. Owing to a lack of proper witnesses the hearing was adjourned. Mrs. Hutton seems to be confident that she will be acquitted of the charge against her and takes care of her business matters much the same as if she were at liberty.

Banish Catarrh

Breathe Hyomei for Two Minutes and Stuffed Up Head Will Get Relief.

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe Hyomei.

It will clean out your head in two minutes and allow you to breathe freely.

Hyomei will end a cold in one day, it will relieve you of disgusting sniffles, hawking, spitting and offensive breath in a week.

Hyomei is made chiefly from a soothing, healing, germ killing antiseptic, that comes from the eucalyptus forests of inland Australia where catarrh, asthma and consumption were never known to exist.

Hyomei is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, use as directed and relief is almost certain.

A complete Hyomei outfit, including inhaler and one bottle of Hyomei, costs but little at druggists everywhere and at Wortley & French's. If you already own an inhaler you can get an extra bottle of Hyomei at druggist.

Women Wanted for War Work.

Thousands of women are in direct war work but thousands more are needed at once. Delay and embarrassment will result if they are not found. The army will suffer—our boys will suffer—needlessly.

Not only nurses are needed. Even the Red Cross employs hundreds of women who are not nurses. A September issue of a Red Cross bulletin says:

"The number of men and women now wanted for the service of the American Red Cross abroad is in excess of 5,000, and the number increases weekly. The women workers required include 250 for canteen service, more than 400 for hospital hut service, about 450 automobile drivers, 79 for airplane hut service and 70 stenographers. And the Red Cross is only one of many war organizations employing women."

Let the women of America once fully realize this pressing need and there will be noble response. Even now what keeps them back is more such questions as "Am I fit?" "How can I go about it?" "How can I get training?" than any lack of willingness.

Such questionings may be met in some cases by the special courses that have been put into our colleges and high schools, while for those who can not go back to such schools there has been established in Chicago a special Woman's War Work Training school. This school gives intensive drill in the things most essential—simple French, short-cut business courses, Hygiene, first-aid, foods, recreation, management, etc. Any one interested may obtain full information by addressing the Dean, Dr. Lucy Rider Meyer, Corner Indiana avenue and Fifth street, Chicago. The school has among its references such men as H. A. Wheeler, president of the U. S.

chamber of commerce, Washington, D. C.; Mrs. Frederick Tice, supervisor department of instruction, American Red Cross; Miss Anna Gordon, president of the National W. C. T. U., etc.

But whether or not training and direct service be possible for her, let every loyal woman pass the word along: MORE WOMEN NEEDED.

A MERCILESS JUDGE

One Who Shows No Favor.

A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Belding resident has withstood this severest of all tests.

A. M. Simmons, painter, 121 East Isabella St., says: "My kidneys used to bother me quite a little and the secretions contained sediment and passed into often. I had a lame back and when I stooped over, a sharp stitch seized me. I had rheumatic pains, too, and I tried almost every kind of medicine without being helped much. Finally I used Doan's Kidney Pills and they soon relieved me."

I haven't had hardly any trouble since." (Statement given January 27, 1913.)

In September, 1916, Mr. Simmons said: "I am just as glad to recommend Doan's Kidney Pills today as ever. When I take them the same good results always follow."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Simmons had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—Adv.

Mrs. Clyde Peck was in Belding Wednesday on business.
